MEMORANDUM FOR NATIONAL FOREIGN INTELLIGENCE COUNCIL

SUBJECT: Security of Foreign Travel by Cleared Personnel [redacted] 25X1

REFERENCE: DCI "Security Policy Concerning Travel and Assignment of Personnel with Access to Sensitive Compartmented Information (SCI)" (effective 8 April 1983)

1. The 1984 winter Olympics, which will be held in Yugoslavia from 7 through 19 February 1984 in Yugoslavia, will attract many visitors. U. S. Government civilian and military personnel, government consultants, and employees of U. S. Government contractors will likely be among those attending this event. Reports indicate that Yugoslav security personnel are active in targeting U. S. diplomatic personnel in that country. Increased and more aggressive targeting is expected. Yugoslavia has entered into new agreements with U. S. Forces in Europe offering financially attractive tour packages for U. S. military personnel coming at any time. Travel to Yugoslavia by U. S. personnel authorized access to Sensitive Compartmented Information (SCI) or other sensitive intelligence data is a cause for security concern. [redacted] 25X1

83-4848

2. The referent DCI policy prescribes security guidance for the Intelligence Community concerning travel to Communist and high-risk countries by persons with access to SCI. Yugoslavia is identified in that policy statement as a country to which travel by persons with SCI access is considered to be a hazardous activity. [redacted] 25X1

3. I request addressees to ensure that personnel and contractors of their departments and agencies who hold SCI or other sensitive intelligence access, and who plan travel to Yugoslavia, are reminded of their security obligations as specified in the referent policy statement and in other applicable department or agency guidelines. I further request that departments and agencies carefully review proposed unofficial travel to Yugoslavia and take appropriate measures to ensure the security of sensitive intelligence known to prospective travelers. [redacted] 25X1

William J. Casey
